

UNIVERSITY OF MOSTAR
School of Medicine
Bosnia and Herzegovina

LATABA seminārs 11.november 2021

Overview

- Introduction about Bosnia & Herzegovina and Mostar
- SUM /Sveučilište u Mostaru - University of Mostar : history, facts
- MEFMO / Medicinski fakultet u Mostaru: School of Medicine
- Libraries– University library and Medical Library at School of Medicine

Where is Mostar - one of sunniest cities in Europe ?

Mostar is a centre of Herzegovina Neretva Canton or Herzegovina region – The Land of Sun and Rock . It can be reached by plane (via Mostar or Sarajevo, Split, Dubrovnik) or by train or bus.

Old bridge - attractive tourist destination, on the UNESCO list of cultural heritage.

- **Dives from the Old bridge**
- **One of Bosnia and Herzegovina's most recognizable landmarks**

Bosnia and Herzegovina at a Glance

Official name:	Bosnia and Herzegovina (most commonly as BiH)
Capital city:	Sarajevo (population 500.000)
Other major cities:	Banja Luka, Bihać, Mostar, Tuzla, Zenica
Geographic location:	South Eastern Europe, borders with Croatia (932 km), Serbia (312 km) and Montenegro (215km)
Area:	51.209 km ²
Population:	3.51 million
Religions:	Muslim (44%), Orthodox Christian (32%), Roman Catholic (17%), Others (7%)
Ethnic groups:	Bosniaks, Serbs, Croats and others
Languages:	Bosnian, Serbian, Croatian (all official)
Administrative organization:	Two entities (Federation of BiH and Republika Srpska) and Brcko District of BiH

University of Mostar – FOUNDERS

Founders of the University of Mostar are the cantons with the Croatian majority in Federation of BiH:

VII Herzegovina-Neretva,

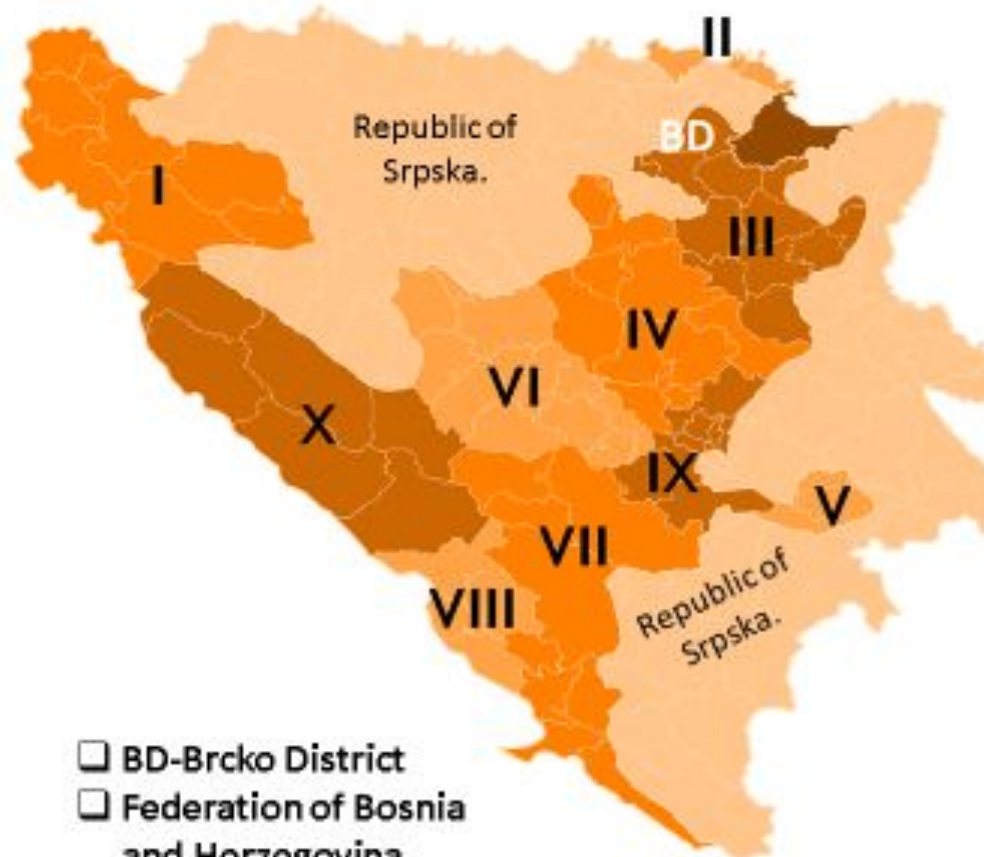

VIII West-Herzegovina,

VI Central Bosnia,

II Posavina

X Canton / Livno

Center of the University of Mostar is in the capital city of Herzegovina – in Mostar.

- ☐ BD-Brcko District
- ☐ Federation of Bosnia and Herzegovina
- ☐ Republic of Srpska

[BiH flag](#)

UNIVERSITY OF MOSTAR

- **> 16000 students**
- **10 faculties and one Academy of Fine Arts**
- **9 Institutes**
- **1000 teachers and associates**
- **50.000,00 m² of space**
- **Central campus in Mostar**
- **New campus in suburb of Mostar**
- **Medical faculty and Faculty of Health studies are located in the area of University Clinical Medical Centre Mostar**
- **The Academy of fine arts is located in Široki Brijeg (20 km from Mostar)**
- **Dislocated studies in Vitez, Kiseljak, Livno, Orašje, Odžak, Jajce and Žepče.**

Library

- University library + faculty libraries
- Total of 40000 literary units, 5650 different titles
- Total of 850 m² of space
- 14 librarian
- Trained staff with certification exam
- Part of COBISS , [Metelwin](#), some self-created

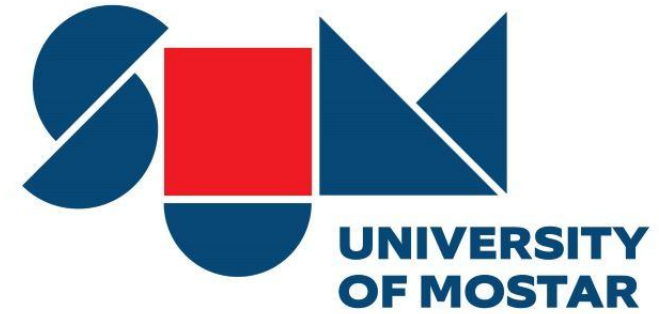

(Co-operative Online Bibliographic Systems and Services -COBISS is reference model of a system representing the platform for the national library information systems of Slovenia, Bosnia and Herzegovina, Macedonia, Montenegro and Serbia)

Student side

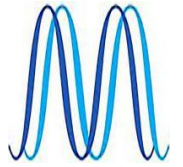

- Library activity – not so good
- Not familiar with existence of COBISS
- Not familiar with other databases
- Quick solution: google search

Academic staff

- Searching and using electronic databases (domestic and international)
- Using other libraries (e.g. Croatian)
- Individual efforts, not institutionally supported (financial reasons)

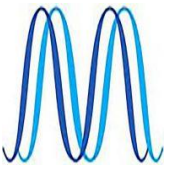

School of Medicine built in 2007

University clinical hospital Mostar

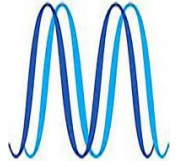

MEFMO facts & numbers 1997-2017

- Large amphitheatre 250 seats, 5 classroom, computer lab, labs/practicums used in teaching (596,79 m²), space used only for scientific research work (235,12 m²), anatomy –cytogenetics lab/workshop ,library
- 33 Departments (21 domestic professors)
- 2020./21. – **430 students of medicine, 180 students of dental medicine,**
- Enrolling quote **60 students.**
- **XIX.** generations graduated in 2020/21, **130 master of science, 131 ph.d**

3 cycle study program

- I. phase : 1997. – 2004. – integrated study program of medicine / dental medicine
: 6 years, 360 ECTS credits, blocks-based teaching,
language of study program: Croatian / English (2017/18 with 14 students)

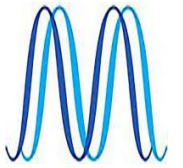

- II. phase : 2003./04 – 2007./08 – master degree study / Msc
: Medical care and Public Health

- III. phase : 2009./10 – doctoral study / PhD
: Biomedicine and Health (3 years, 180 ECTS credits)

- 2016/17: Dental medicine started

**Library
(as it used to be)**

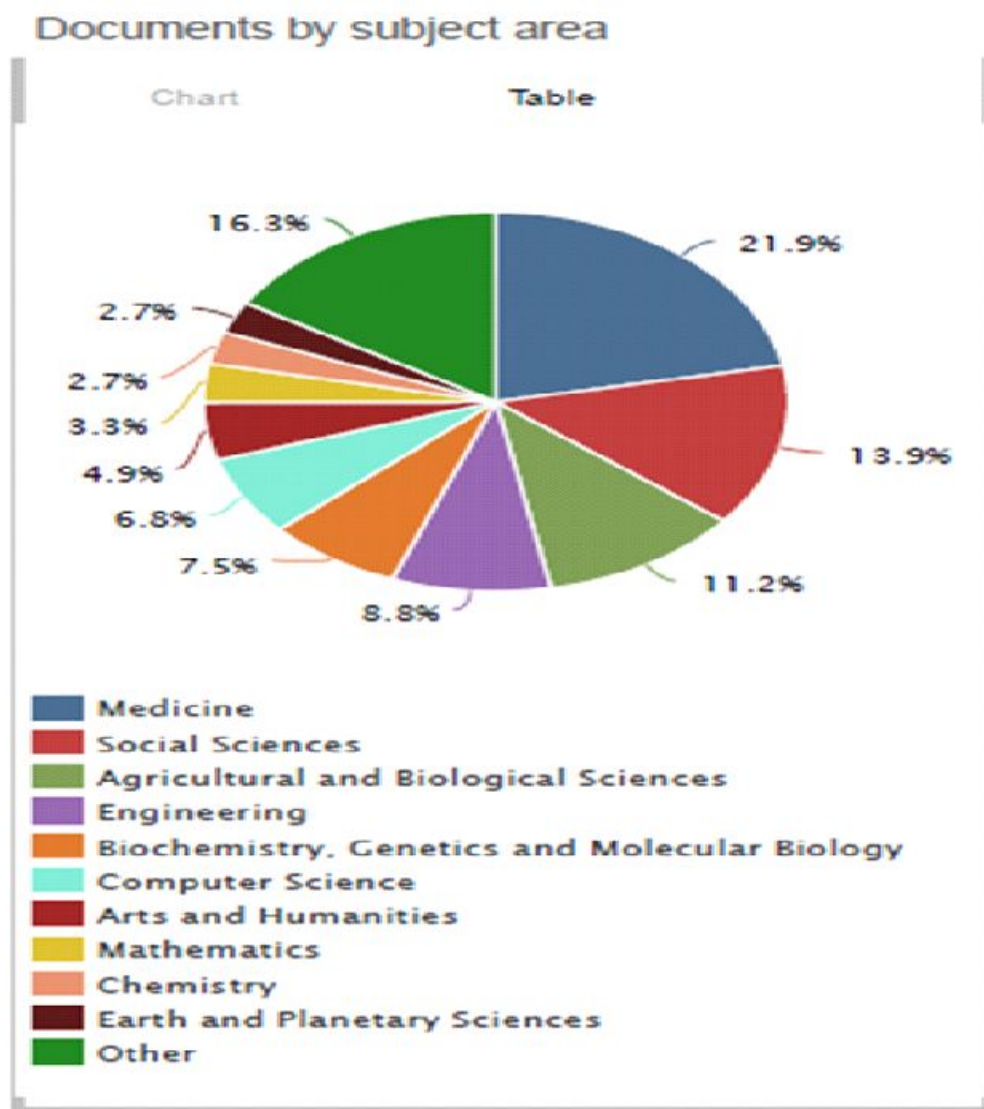

The library and Publishing activity

- In 1998 started the preparation of the project proposal under the heading „Development of the Library at School of Medicine“ which was accepted after the application within TEMPUS projects.
- 1999 Project started and after two years MF had its library premises.
- Despite limiting factors such as insufficient funds for continuous library funding (mainly library membership fees) the absence of the system at the state-level and the limited spatial capacities ,we started with the creation of contemporary library, according to our environment.

- The fundamental goal of modern library of 21st century is to provide users (teaching staff, students and medical staff of health centers on additional further education/training) with faster and easier access to information, backed by modern and efficient interlibrary borrowing.
- The well-known facts about the high price of medical textbooks is reflected to the slow growth of the textbook fund -**675 books of required literature** (84 titles), SUBITO service, membership in EAHIL (European Association for Health Information and Libraries) and MLA (Medical Library Association).
- OVID, Springer, HINARI, ARDI
- [Medicina Academica Mostariensia](#) is the journal of School of Medicine University of Mostar that is published twice a year as the part of journal Psychiatria Danubina. Journal indexing: Excerpta Medica (EMBASE), Medline/PubMed, Ebsco, Current Contents – Social and Behavioral Sciences, SCIE, SSCI, JCR, SCOPUS....

O knjižnici

Knjižnica Medicinskog fakulteta

Knjižnica Medicinskog fakulteta Sveučilišta u Mostaru je rezultat dvogodišnjeg **Tempus Phare Academic JEP (Project ID: 13169-1998)** radnog naziva **"School of Medicine Library Development"** * koji je imao za cilj organizirati modernu medicinsku knjižnicu dobro uvezanu sa međunarodnom zajednicom, obučiti osoblje uposleno u knjižnici modernom bibliotekarstvu i educirati studente i medicinsko osoblje kako se pravilno koristiti dostupnim knjižničnim resursima. Osnivačkim aktom 1997. godine Medicinski fakultet postaje samostalna institucija sa svim ustrojbenim jedinicama pa tako i knjižnicom, te bi se moglo reći kako smo relativno mlada knjižnica, ali sa svojim uslugama i kvalitetom nastojimo stati uz bok sa srodnim knjižnicama u svijetu.

Svaka knjižnica pa tako i naša ima osnovnu funkciju i zadatak sustavnog i neprestanog odabira knjižnične građe, stručnu obradu, smještaj, čuvanje, zaštitu i davanje na korištenje knjižne građe, kao i pružanje raznolikih knjižničnih usluga svojim korisnicima.

Knjižnica se u svom poslovanju oslanja na rad **Središnje medicinske knjižnice, Medicinskog fakulteta u Zagrebu** i uvodi klasifikacijsku shemu i tezaurus MeSH National Library of Medicine (Bethesda, SAD), te osobitu pozornost posvećuje sustavnoj nabavi osnovne i dopunske literature predviđene po Nastavnom planu i programu Medicinskog fakulteta u Mostaru.

Korisnicima je omogućen on line pristup **katalogu** za pretraživanje kako našeg fonda tako i drugih umreženih knjižnica kod nas i u svijetu. Kako živimo u vremenu

Library services : book loan

- 2 books borrowed
- 30 days; staff max. 3 months
- extension 15 days (max. 2.times), if there is no interest of other users for it;

Library services: Interlibrary loan

- actively participate with domestic and international libraries
- SUBITO service for articles.

Kako izraditi vlastitu bazu podataka radova?: Home

Pretražite ovaj vodič

traži

Još jedan koristan članak na mrežnim stranicama knjižnice IRB iz njihove serije "kako?" može vam pomoći ukoliko još razmišljate koji je za vas najbolji alat za referencu: Zotero, Mendeley, EndNote, RefWorks?

Za izradu vlastite baze podataka radova danas su na raspolaganju mnogobrojni besplatni i komercijalni programi za upravljanje referencama (citatima, bibliografskim navodima) poznati pod engleskim nazivima *softver za upravljanje referencama*, *softver za upravljanje citatima* ili *softver* za upravljanje osobnim bibliografskim podacima . Njihova je glavna namjena organizacija i upravljanje prikupljenim referencama i cjelovitim radovima. Raspolažu sa stotinama različitih standarda citiranja literature, pa odabrane radove možete izdvojiti u jednom od njih i jednostavnim naredbom copy/paste ugraditi ih u svoj članak, knjigu, disertaciju i dr.

Odgovore na dole navedena pitanja potražite [ovdje](#) :

Kako mogu izraditi vlastitu bazu podataka?

Što je Zotero ?

Što je Mendeley?

Što je EndNote?

Što je RefWorks?
